

Invitation: Thailand meets Germany: Forging stronger Business Partnerships

30th May 2022, Berlin, Capital Club Berlin

Dear all,

located in the heart of the ASEAN region, Thailand is an advanced emerging economy with a strong industrial base. To maintain its economic growth in the coming years, the country is striving for a systematic diversification of its economic structure. The Thai government has launched various programs and initiatives designed to further increase the competitiveness and speed up the digital transformation.

The main approach is the **Eastern Economic Corridor (EEC) – a large special economic zone south-east of Bangkok**. In the EEC, which is already Thailand’s economic center, future industries like biotechnology or next-generation vehicles are to be settled and promoted. Investors are offered very attractive conditions, such as an efficient infrastructure, streamlined bureaucratic procedures and multi-year tax breaks.

The OAV along with the Royal Thai Embassy in Berlin, the Eastern Economic Corridor Office of Thailand, the German-Thai Chamber of Commerce, the German Global Trade Forum and the Diplomatic Magazine, would like to invite you to a **high-level information event on the opportunities for German companies in the EEC**.

In a presentation, **Secretary-General, Mr. Kanit Sangsubhan, will outline the overriding strategic importance of the EEC for the further economic development of Thailand**. A special focus of the event will be on the Robotics, EV Digital Electronics und Smart Cities. In an expert

panel the further potential for German-Thai business cooperation will be discussed.
